Andrew Francis Kurtz

ELECTRICAL ENGINEERING / **PHYSICS**

Bridgewater, NJ 08807 • 908-235-1973 • andrew.kurtz616@gmail.com
LinkedIn • afkurtz.github.io • github.com/AFKurtz

PROFILE

Electrical engineering graduate with a foundation in physics and applied mathematics, motivated by a strong interest in understanding and improving complex physical systems. Graduate study in robotics, autonomous systems, and power systems complements experience in industrial process analysis, electronics laboratories, and technical instruction. Interested in engineering and research roles involving systems analysis, controls, and applied physics.

EDUCATION

M.Eng. Electrical Engineering

Stevens Institute of Technology

December 2025

Robotics and Autonomous Systems Engineering concentration

Power Systems Engineering certificate

GPA 3.93

B.S. Physics

Seton Hall University

May 2024

Minor in Applied Scientific Mathematics

Magna cum laude

GPA 3.66

TECHNICAL SKILLS

PROGRAMMING

Python • C/C++ • MATLAB

SOFTWARE

Linux • SolidWorks • Seeq • PI DataLink

ENGINEERING

Electronics and circuits • Power systems • Process data analysis

RECOGNITION

NASA New Jersey Space Grant Consortium Academic Fellowship, Fall 2023

Sigma Pi Sigma, Physics and Astronomy Honor Society

Eagle Scout, Troop 84

ENGINEERING EXPERIENCE

Chemical Engineering Summer Intern

dsm-firmenich | Newark, NJ / Jun–Aug 2025

- Analyzed industrial process and batch data using Seeq and PI DataLink to identify trends and support optimization.
- Worked with engineering teams to troubleshoot production inefficiencies and improve batch reliability.

Teaching Assistant

Seton Hall University | South Orange, NJ / Sep 2023–May 2024

- Conducted introductory physics, electronics, and advanced laboratories, including circuit analysis and laboratory safety.

ADDITIONAL EXPERIENCE

Full-Time Substitute Teacher

Immaculata High School | Somerville, NJ / Fall 2026

- Teach AP Chemistry, Honors Chemistry, and Food Science, explaining scientific concepts and guiding student learning.

LEADERSHIP AND INTERESTS

Robotics Mentor | Immaculata High School's Cold Fusion 1279 robotics team

Hobby Rocketry | Plans to pursue Level 1–3 high-power certifications

Computer Tinkering | Hardware, software, and Linux
